

ADVENTIST EDUCATION STANDARDS

Standards, what learners should know (content) and be able to do (skills), serve as the framework for curriculum development. Standards in NAD Seventh-day Adventist schools reflect the Adventist worldview across the K-12 curricula as well as the integration of national and provincial/state standards. The Adventist worldview accepts the Bible as the standard by which everything else is measured. Four key concepts emerge from a biblical worldview that can be used as a lens for curriculum development, as well as informing the essential questions and big ideas of any content area: Creation (What is God's intention?), Fall (How has God's purpose been distorted?), Redemption (How does God help us to respond?), and Re-creation (How can we be restored in the image of God?).

— THE CORE OF ADVENTIST EDUCATION CURRICULUM

PHYSICAL EDUCATION DOMAINS

1. **MOTOR SKILLS** - Demonstrates competency in a variety of motor skills and movement patterns.
2. **PERFORMANCE APPLICATION** - Applies knowledge of concepts, principles, strategies and tactics related to movement and performance.
3. **PHYSICAL FITNESS** - Demonstrates the knowledge and skills needed to achieve a health-enhancing level of physical activity and fitness.
4. **RESPONSIBLE BEHAVIOR** - Exhibits responsible personal and social behavior that respects self and others as children of God.
5. **VALUES HEALTH** - Recognizes the value of physical activity for health, enjoyment, challenge, self-expression, and/or social interaction.

STANDARDS CODING

The standards have been coded so that educators can easily refer to them in their curriculum, instruction, and assessment practices. The coding system that precedes each standard begins with the content area abbreviation in letters; all are identified with PE-Physical Education (**PE.K.MS.1**). The second part of the code refers to the grade level (**PE.K.MS.1**). The third part of the code refers to the particular physical education domain (**PE.K.MS.1**), with MS standing for Motor Skills. The fourth part of the code refers to a particular skill within the physical education domain (**PE.K.MS.1**). The coding system that follows each standard is the National Standards & Grade-Level Outcomes for K-12 Physical Education that aligns with the NAD standard. Where no code exists, there is no corresponding national standard. Words which are italicized within the standard document are defined in the glossary located on the NAD website. Embedded in the electronic version is a feature which allows for the definition to appear when hovering over the italicized word.
