

ADVENTIST EDUCATION STANDARDS

Standards, what learners should know (content) and be able to do (skills), serve as the framework for curriculum development. Standards in NAD Seventh-day Adventist schools reflect the Adventist worldview across the K-12 curricula, as well as the integration of national and provincial/state standards.

The Adventist worldview accepts the Bible as the standard by which everything else is measured. Four key concepts emerge from a biblical worldview that can be used as a lens for curriculum development, as well as informing the essential questions and big ideas of any content area:

- 1. CREATION**
What is God's intention?
- 2. FALL**
How has God's purpose been distorted?
- 3. REDEMPTION**
How does God help us to respond?
- 4. RE-CREATION**
How can we be restored in the image of God?

As new textbooks are adopted, standards for the respective content areas are developed or revised.
