### MUSIC TEXTBOOKS

KH/PS

*Kindergarten Stepping Stones: A Journey to Excellence through Discovery* is an integrated curriculum that utilizes literature-based themes with strong spiritual connections so children may come to know God better and love him more.

*Silver Burdett Making Music, 2005* by Pearson Scott Foresman has been adopted by the North American Division. It offers a solid music program with numerous connections to other content areas. There is a variety of activities to choose from for both the trained musical educator as well as the regular classroom teacher.

The [\*Making Music Implementation Guide, 2002\*](#) is available on the North American Division website and has been developed to make the music program manageable as well as affordable. **Only grades 3 and 5 materials need to be purchased from Pearson Scott Foresman.** Based on a four-year cycle, grades 1-4 are to be taught using the grade 3 materials, and grades 5-8 are to be taught using the grade 5 materials. This guide also includes information on incorporating hymnology with the program as well as "cautions" which are always needed when using a secular program.

The Teacher's Edition and the Compact Disk Package are essential components for the classroom. Although the student editions are not crucial for the program to be successful, some schools may want to purchase enough for every three to four students. Materials can be ordered directly from [Pearson School](http://Pearson School).
